DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-21, drawn to a tunneler, classified in class 623, subclass 1.11.
- II. Claims 22-25, drawn to a method for using a tunneler with a catheter, classified in class 604, subclass 528.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case, a tunneler can be used for with a single lumen catheter, rather than a multi-lumen catheter.
